

Aloha from 5th Grade

May 9th-13th

What's going on

CKLA: We taught Timothy how to grow, walk, and talk this week through our writing. They wrote about a variety of things. We also talked about using dialogue in our writing.

Math: We continued working on our *Build a Zoo* projects. They finished their calculations this week. They also finished their blueprints for their zoos to present to the class next week!

Science: We paused science this week to focus on social studies.

Social Studies: We started our final project in social studies this week. Each group of kids has an important event in US history that we didn't get to this year. They have to create a slideshow presentation about their event that they will share with the class next week. They are becoming the experts of that particular event!

Upcoming Events

- **May 26th-Last day, wear White for our grade!**

Mahalo

Thank you to all of the chaperones that came on our trip yesterday! I greatly appreciate you volunteering to come and help out! I hope you all enjoyed the day as much as the kids did.
